

2013 Boise Code Camp

March 16th

Boise State University

BoiseCodeCamp.com

This **free-to-the-community** event has become Boise's #1 technical event. Boise Code Camp offers **a full day of technology learning** for the best value possible: *Free!*

Come spend the day improving your game, learning with others, and enjoying the company of your technical community. **Code Camp** offers open sessions provided by leading technology professionals from Idaho and all over the northwest! Attendees choose their own sessions to attend and enjoy breakfast and lunch.

This event is created, organized, and presented by software developers and other technology leaders as a service to the Boise technical community, and provides timely content for technology practitioners of all levels and interests.

Whether your interests run toward a fundamentals session on databases, learning to create better requirements, the latest in cloud computing, agile techniques and practices, or networking issues, Boise Code Camp will have something for you.

2013 is bigger and better with a new date to allow for more attendees!

Even with the popularity of BCC, some people still don't know all about it, so help spread the word. There are plenty of ways to get involved and opportunities for everyone including presenting a session, helping with logistics, or corporate sponsorship.
